PROFESSIONAL SUMMARY

Computer Science undergraduate at VIT-AP University with strong expertise in Data Structures & Algorithms, Java, and Full-Stack Development. Proficient in developing scalable web applications and REST APIs using React, FastAPI, PostgreSQL, and SQLAlchemy. Experienced in database design, API development, and data visualization through hands-on projects. Passionate about software engineering, problem solving, and building efficient, scalable, and user-focused solutions.

TECHNICAL SKILLS

Languages: Java, Python, C, JavaScript, SQL, R
Frameworks: React, FastAPI, SQLAlchemy
Databases: PostgreSQL, SQL
Tools: Git, GitHub, VS Code, Arduino IDE, Figma, Adobe XD
Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, REST APIs

EXPERIENCE

- Deloitte Australia Virtual Internship** 2025
 - Forage Virtual Experience Program*
 - Completed a Software Engineering virtual experience simulating real-world consulting projects.
 - Applied object-oriented programming, debugging, testing, and problem-solving to deliver client-focused software solutions.

PROJECTS

- Smart Expense Tracker** 2026
 - Built a full-stack expense management application using React, FastAPI, PostgreSQL, and SQLAlchemy.
 - Implemented REST APIs, CRUD operations, analytics dashboard, filtering, and expense visualization using Chart.js.
- Smart Air Quality Monitoring System using ESP32** 2025
 - Developed an IoT-based air quality monitoring system using ESP32 and environmental sensors.
 - Integrated ThingSpeak cloud platform with automated email alerts using Google Apps Script.
- Fake News Detection Using Neural Network** 2024
 - Developed a supervised binary text classification model using LSTM to identify fake news articles.
 - Applied NLP preprocessing, tokenization, word embeddings, and feature engineering for improved prediction accuracy.
- E-Tutor Online Jobs Portal** 2025
 - Developed a web platform connecting tutors and students with job search, profile management, and session scheduling.
 - Implemented secure authentication, database integration, and modular software engineering practices.

EDUCATION

- VIT-AP University** Expected Graduation: 2027
 - Bachelor of Technology in Computer Science and Engineering* CGPA: 7.94/10

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- AWS Academy Graduate – Cloud Architecting
- Oracle AI Foundations Associate
- IBM Generative AI Fundamentals
- Hashgraph Developer Course
- Claude 101 – Anthropic Education

ACTIVITIES

- Design Team Member – Machine Learning Club, VIT-AP University
